## **SUPPLEMENTARY INFORMATION:**

### **I. What Information is EPA Particularly Interested in?**

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

## **II. What Information Collection Activity or ICR Does this Action Apply to?**

*Title:* Submission of Unreasonable Adverse Effects Information Under FIFRA Section 6(a)(2).

*ICR number:* EPA ICR No. 1204.12.

*OMB control number:* OMB Control No. 2070-0039.

*ICR status:* This ICR is currently scheduled to expire on September 30, 2014. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable.

The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

*Abstract:* Section 6(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) requires pesticide registrants to submit information to the Agency which may be relevant to the balancing of the risks and benefits of a pesticide product. The statute requires the registrant to submit any factual information that it acquires regarding adverse effects associated with its pesticidal products, and it is up to the Agency to determine whether or not that factual information constitutes an unreasonable adverse effect. In order to limit the amount of less meaningful information that might be submitted to the Agency, EPA has limited the scope of factual information that the registrant must submit. The Agency's regulations at 40 CFR part 159 provide a detailed description of the reporting obligations of registrants under FIFRA section 6(a)(2).

*Burden statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2.85 hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

*Respondents/affected entities:* Entities potentially affected by this ICR include anyone who holds or has ever held a registration for a pesticide product issued under FIFRA section 3 or 24(c). The North American Industrial Classification System (NAICS) code is 325300 (pesticide, fertilizer and other agricultural chemical manufacturing).

*Estimated total number of potential respondents:* 1,738.

*Frequency of response:* On occasion.

*Estimated total average number of responses for each respondent:* 54.

*Estimated total annual burden hours:* 264,957 hours.

*Estimated total annual costs:* \$15,940,734. There is no capital investment or maintenance and operational costs associated with this ICR.

### **III. Are There Changes in the Estimates from the Last Approval?**

There is an increase of 61,721 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects EPA's updating of burden estimates for this collection based upon historical information on the number incident reports per submission. Based upon revised estimates, the number of incident reports has increased from 71,000 to 93,000 with a corresponding increase in the associated burden. This change is an adjustment.

### **IV. What is the Next Step in the Process for this ICR?**

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
